İsmail Uyar

Optician

Optical Consultancy Services / Entrepreneurship Consultant

İsmail Uyar was born in 1987 in Bozkır, Konya. He is graduated from Süleyman Demirel University Senirkent Vocational School of Opticianry programme in 2007. With the Optical Consultancy Services established within Day Optik Grup A.Ş., it offers consultancy services to newly graduated opticians for the first time in our country. With the digital software he developed, he offers three different applications/programmes specific to the optical sector today. He has 3 different books written to contribute to the education of opticianship programme students and they are distributed digitally free of charge every year. It organises online seminars on the topics needed in line with the demands of universities with opticianry programmes. It makes useful current posts on social media and the internet for optician candidates.
